Saint Leo University Biometric Wellness Screening

Welcome to the Saint Leo University's biometric wellness screening.

Dear employee,

SLU has teamed up with Quest Diagnostics to offer you a free and confidential wellness screening so you can begin your quest for better health and wellness. This screening will be available to you at our upcoming **Wellness Fair on September 22, 2016**, from noon to 4 p.m.

Why should you participate?

- It's free – SLU pays 100 percent of the screening cost!
- *It's confidential* – All information obtained as a result of your screening experience is Protected Health Information (PHI) and is secured in accordance with the federal Health Insurance Portability and Accountability Act (HIPAA). SLU will not have access to your individual results.
- Your individual test results are not shared with your employer, and your privacy is always protected.
- You will learn the things you are doing well.
- You will understand your health and gain insight to risks you may otherwise not have known.
- You can focus your efforts on the behaviors that you can change.
- You can start a conversation with your physician about taking charge of your health.
- It's comfortable, and fast.

What to expect at your screening

- Fasting is not required for this screening; however, you should drink plenty of water.
- Take all medications according to your regular schedule.
- The screening takes about 15 minutes from check-in to completion, and includes: biometric measurements (height, weight, Body Mass Index (BMI), and blood pressure measurements) and a finger stick blood draw.

Confidentiality assured

All information obtained as a result of your screening experience is Protected Health Information (PHI) and is secured in accordance with the federal Health Insurance Portability and Accountability Act (HIPAA). Saint Leo University will not have access to your individual results.
